September 2018

Dear Elementary Families

This year, your child will continue to use the *Go Math* materials and will have access to online materials from home. The online component of *Go Math* is called *Think Central*. The technology is a fine enhancement for your child to further his/her understanding of concepts through practice, games, and watching animated math videos. It also allows your child to access his/her homework assignment if he/she forgets to take home the book.

Below is the process that you will need to use to access the *Go Math* technology. *Please note if you have several children, the access is different for each child.*

- Go to www.thinkcentral.com
- Select the subject **Mathematics**
- Select from choices **Go Math**
- Using the drop down menu
 - State:** **New Jersey**
 - District:** **Berkeley Heights**
 - School:** **Your child's school**
- User name:** **Your child's first initial, last name, and the number the year he/she will graduate high school.** (e.g. Grade 2-- sjones29, Grade 3--sjones28, Grade 4--sjones27, Grade 5--sjones26)
- Password:** **Is your child's 6-digit lunch code plus Bh** (e.g. 235416Bh)

If you are having any problem accessing the site, please contact your child's teacher. As a district, we are pleased to offer you these additional resources to support mathematic instruction in the classroom.

Sincerely,

Patricia A. Gasparini
Principal/K-5 Math Curriculum
Supervisor
