

Dr. Melissa Varley noreply@bhpsnj.org via spe.schoolmessenger.com Mon, Nov 2, 8:54 PM

This evening we were notified that one of our staff members at MKM has tested positive for Covid-19. This staff member's position placed them in a self-contained classroom that does not travel throughout the building. All students and staff who have come into close contact with this staff member have been contacted. If you have not been contacted, you nor your child has been in contact with this staff member. As always we have worked closely with the Department of Health and determined that this one class within MKM will need to quarantine for 14 days. The remainder of the building will operate as normal.

At this time, this is all the information that we can share. Please stay safe and healthy.

Sincerely,

Melissa Varley
