Throughout the month of February we acknowledge "Black History Month", also known as African American History Month. Throughout this month, African Americans' achievements are celebrated, praised, and recognized. We also pay tribute to the African Americans who struggled with adversity to achieve full citizenship in the United States. This month, young people are taught about the contribution of African Americans who have impacted the world through their activism and legacy. So, all month long, encourage yourself to go beyond the discussions of slavery and racism, commemorate the most inspiring Black leaders, and reimagine the possibilities that lie ahead!"

Attention all 8th Grade Twins! This year we will be featuring you in the Yearbook with your own special page! Please email a photo of your choice with your twin to Ms. Czerniak or come down to C-7 any available Day 3! The deadline for the photo submission is February 14th 2023.
