

AP Studio Art Summer Assignment 2021-2022

**Read Course Description, Expectations, Course Content,
Section I & Section II and complete AP Studio Assignments**

Course Description: AP Studio Art: 2D Design/Drawing (non-photography)

This is an advanced level course that is designed for students who want to further develop mastery in their art making skills. The course is developed as a college level course completed at the high school level. Requirements for the final portfolio are developed by the College Board Advanced Placement Program, including A) Selected Works and B) Sustained Investigation Section that consists of approximately 20 different advanced level artworks. All students enrolled in this course are expected to submit a portfolio. Portfolios are submitted in digital format to the AP Board for scoring in a 1-5 range. Students who receive a 3, 4, or 5 on the portfolio are often given credit(s) for their efforts when they enter their Undergraduate Program at the College or University of their choice. Submission of a portfolio is mandatory for receiving AP credit. Students who complete this course will have not only created an excellent portfolio, but will: 1) Become independent critical thinkers 2) Emphasize art making as an outlet of personal expression and voice 3) Develop sophisticated technical versatility and skill within the Elements and Principles of Design 4) Learn how art making/creative solutions can be an integral part of daily life.

Expectations: In addition to work completed in class, artwork will have to be done at home – this will help you accomplish 1 finished piece of work approximately every 2-3 weeks throughout the year. Expect to spend time at home working on your artwork. A sketchbook/journal is to be kept throughout the course. This will include personal responses to work, photos, notes, measurements, sketches, clippings, and any other variety of ideas/techniques produced/practiced on a daily basis. (You may also need a flash drive to keep record of your own work). Deadlines must be met. Procrastination is not accepted in this course, or the portfolio requirements will never be able to be completed in the time period allotted. Students must be active participants in class. Discussions and critiques are key learning processes in this course and students must contribute their ideas and thoughts at all times. Students must be prepared for class. Students must arrive to class on time with their materials, and use the class time to its fullest extent. Respect is expected at all times. This includes respect for personal artwork, respect for other people's artwork, respect for the classroom and materials, and most of all respect for people's ideas, opinions, and feelings voiced in discussion. Students must also study classic and contemporary artists and trends during the duration of the course. Students are expected to visit galleries and local art museums on their own 2-3 times during the year.

All artwork must be original! No published work can be used as a basis for personal artwork unless significant alteration

to the image is completed. All imagery must be developed according to personal voice and any duplication of imagery from any source is not accepted.

Course Content: 1) Critiques, written reflections, discussions and production along with the study of historical and contemporary artists. 2) A working journal composed of research, sketches, photos, images, documented conversations, short assignments, problems that arise and the solutions to those problems, and techniques. 3. Development of the student's submitted portfolio for AP 2D Design/Drawing. The portfolio includes the following two sections:

Section I: Selected Works (40% of total AP Score) This section of the AP Art and Design Portfolio Exams offers students the opportunity to make and present works of art and design with minimal constraints. Each work is expected to demonstrate skillful synthesis of materials, processes, and ideas. Requirements: For this section, students should carefully select works that best demonstrate their skillful synthesis of materials, processes, and ideas. The submission can be a group of related works, unrelated works, or a combination of related and unrelated works. These works may also be submitted in the Sustained Investigation section, but they don't have to be. Along with each work, students are required to submit written responses to prompts about the work. Responses are

evaluated along with the images that students submit. AP 2-D Art and Design Portfolio-Five physical works or high-quality printed reproductions of physical works that each demonstrate synthesis of materials, processes, and ideas using 2-D art and design skills. AP Drawing Portfolio-Five physical works or high-quality printed reproductions of physical works that each demonstrates synthesis of materials, processes, and ideas using drawing skills

Section II: Sustained Investigation (60% of total AP Score) This section of the AP Art and Design Portfolio Exams offers students the opportunity to make and present works of art and design based on an in-depth investigation of materials, processes, and ideas done over time. Sustained investigation is guided by questions. It involves practice, experimentation, and revision using materials, processes, and ideas. The Sustained Investigation section is expected to demonstrate skillful synthesis of materials, processes, and ideas. Requirements: Along with each work, students are required to submit written responses to prompts about the work. Responses to these prompts are evaluated along with the images that students submit. The most successful responses in terms of assessment are those that are clearly related to the images of work submitted; that directly and completely address the prompts; and that provide evidence of inquiry-based sustained investigation through practice, experimentation, and revision. AP 2-D Art and Design Portfolio-15 digital images of works of art and process documentation that demonstrate sustained investigation through practice, experimentation, and revision. AP Drawing Portfolio-15

digital images of works of art and process documentation that demonstrate sustained investigation through practice, experimentation, and revision

AP Studio Art: Summer Assignments for 2D Design/Drawing

- 1) You will need to keep a sketchbook. You will write down all of your ideas for your sustained investigation projects. You can draw, doodle, sketch, take notes, collect pictures, and use other various techniques to give insight into your thought processes.
- 2) Two visits to art museums and/or Galleries. In your sketchbook, put your gallery cards, and general notes about the artists whose work you viewed. Choose your favorite 3 pieces and study them. Make notes about what you find intriguing, the material, date, subject, and content. Complete 3 sketches, or take photos (with permission).
- 3) Decide on your concentration (theme of your work) and create a series of 4 works that demonstrate your concentration (Sustained Investigation).
